

## RS601H SERIES

|                |           |               |
|----------------|-----------|---------------|
| 額定電流、電壓 RATING | 3A 250VAC | 3A/40A 250VAC |
|                | 3A 250VAC | 6A/125VAC     |

|                            |                 |
|----------------------------|-----------------|
| 接觸電阻 CONTACT RESISTANCE    | ≤ 20mΩ          |
| 絕緣電阻 INSULATION RESISTANCE | ≥ 100MΩ         |
| 介電強度 DIELECTRIC INTENSITY  | ≥ 1800VAC/3S    |
| 電器壽命 ELECTRICAL LIFE       | ≥ 10,000 Cycles |

| RS601H            | 1                   | 01                                    | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 01                                                                                     | 1                                                                                                                                                              | B                                                                                                                                                     | B                                                                                                                                                     |
